No. 1762

Introduced by Assembly Member Steinorth
*(Coauthors: Assembly Members Acosta, Chen, Flora, Harper, Lackey,
and Mathis)*
(Coauthor: Senator Nguyen)

January 4, 2018

An act to amend Section 5008.1 of the Public Resources Code, relating to state parks.

LEGISLATIVE COUNSEL'S DIGEST

AB 1762, as amended, Steinorth. State parks: visitors: animals.

Under existing law, the Department of Parks and Recreation administers and manages the state park system. Existing law permits visitors to bring animals into units of the state park system when the Director of Parks and Recreation determines that it is in the public interest. Existing law prohibits an animal brought into a state park system unit from being allowed to pose a threat to public safety and welfare, create a public nuisance, or pose a threat to the natural or cultural resources of the unit or to the improvements at the unit.

This bill would permit visitors to bring animals into units of the state park system or recreational areas of those units, ~~including hiking trails, unless limiting access to a unit or recreational area is the only means of preventing those animals from engaging in units.~~ *The bill would require the director to develop fines, rules, and regulations to mitigate or prevent any behavior by those animals that is likely to may pose a substantial threat to public safety and welfare, create a substantial public nuisance, or pose a substantial threat to the natural or cultural resources*

of the unit or to the improvements at the unit. ~~The bill would require the department to rely on fines, fee authority, rules, and regulations, whenever available, to prevent these harms in lieu of limiting access pursuant to these provisions.~~

Vote: majority. Appropriation: no. Fiscal committee: yes.
 State-mandated local program: no.
