

H.R.4936 : To amend the Federal Hazardous Substances Act to require engine coolant and antifreeze to contain a bittering agent so as to render it unpalatable.

Sponsor: Rep Ackerman, Gary L. [NY-5] (introduced 1/15/2008)

Cosponsors (20)

Committees: House Energy and Commerce

Latest Major Action: 1/16/2008 Referred to House subcommittee.

Status: Referred to the Subcommittee on Environment and Hazardous Materials.

SUMMARY AS OF:

1/15/2008--Introduced.

Antifreeze Bittering Act of 2007 - **Requires** engine coolant or antifreeze that is **manufactured six months after the enactment of this Act**, and that **contains more than 10% ethylene glycol, to include denatonium benzoate at a minimum of 30 parts per million and a maximum of 50 parts per million as a bittering agent** so as to render the coolant or antifreeze unpalatable.

Requires a coolant or antifreeze **manufacturer to maintain records** of compliance with this Act.

Limits the liability of manufacturers, distributors, recyclers, or sellers of engine coolant or antifreeze **who are in compliance** with the requirements of this Act **for personal and property loss or damage to the environment that results from the inclusion of denatonium benzoate** in any coolant or antifreeze.

Declares this Act **inapplicable** to: (1) the **sale of a motor vehicle** that contains engine coolant or antifreeze; or (2) **wholesale containers** of engine coolant or antifreeze containing **55 gallons or more** of engine coolant or antifreeze.

Antifreeze Bittering Act of 2007 (Introduced in House)

HR 4936 IH

110th CONGRESS
2d Session
H. R. 4936

To amend the Federal Hazardous Substances Act to require engine coolant and antifreeze to contain a bittering agent so as to render it unpalatable.

IN THE HOUSE OF REPRESENTATIVES

January 15, 2008

Mr. ACKERMAN introduced the following bill; which was referred to the Committee on Energy and Commerce

A BILL

To amend the Federal Hazardous Substances Act to require engine coolant and antifreeze to contain a bittering agent so as to render it unpalatable.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the 'Antifreeze Bittering Act of 2007'.

SEC. 2. ADDITION OF BITTERING AGENT IN ANTIFREEZE REQUIRED.

The Federal Hazardous Substances Act (15 U.S.C. 1261 et seq.) is amended by adding after section 24 (15 U.S.C. 1278) the following new section:

' SEC. 25. ADDITION OF BITTERING AGENT IN ANTIFREEZE REQUIRED.

'(a) In General- Any engine coolant or antifreeze that is manufactured after the date that is 6 months after the date of enactment of this section, and that contains more than 10 percent ethylene glycol, shall include denatonium benzoate at a minimum of 30 parts per million and a maximum of 50 parts per million as a bittering agent within the product so as to render it unpalatable. Any engine coolant or antifreeze that is subject to this subsection and is not in compliance with this subsection shall be deemed a 'banned hazardous substance' within the meaning of section 2(q) (15 U.S.C. 1261(q)), and shall be subject to the penalties provided for in section 5 (15 U.S.C. 1264).

'(b) Record Keeping- A manufacturer of a product subject to this section shall maintain a record of the trade name, scientific name, and active ingredients of any bittering agent used pursuant to this section. Such information shall be available to the public upon request.

'(c) Limitation on Liability- (1) Subject to paragraph (2), a manufacturer, processor, distributor, recycler, or seller of an engine coolant or antifreeze that is required to contain an aversive agent under subsection (a) shall not be liable to any person for any personal injury, death, property damage, damage to the environment (including natural resources), or economic loss that results from the inclusion of denatonium benzoate in any engine coolant or antifreeze, provided that the inclusion of denatonium benzoate is present in concentrations mandated by subsection (a).

'(2) The limitation on liability provided in this subsection does not apply to a particular liability to the extent that the cause of such liability is unrelated to the inclusion of denatonium benzoate in any engine coolant or antifreeze.

'(3) Nothing in this subsection shall be construed to exempt any manufacturer or distributor of denatonium benzoate from any liability related to denatonium benzoate.

'(d) Preemption- No State or political subdivision of a State shall have any authority either to establish or continue in effect with respect to retail containers containing less than 55 gallons of engine coolant or

antifreeze any prohibition, limitation, standard or other requirement relating to the inclusion of a bittering agent in engine coolant or antifreeze that is in any way different from, or in addition to, the provisions of this chapter.

`(e) Exemption- The requirements of this section shall not be construed to apply to--

`(1) the sale of a motor vehicle that contains engine coolant or antifreeze; or

`(2) wholesale containers of engine coolant or antifreeze containing 55 gallons or more of engine coolant or antifreeze.'.
